Sahbi KARDI 
Sahbi KARDI 

I am a Self-taught Full-Stack developer, passionate about building modern web applications, and enjoys working on challenging problems. I was hooked to programming since the first encounter during my Electrical Engineering studies, after graduating in July last year I decided to become a web developer. Because I find it more challenging than the day-to-day EE work.

My previous exposure to programming made it easy for me to learn and “master” the leading web technologies and frameworks. Since then, I developed a website for a small business, a personal portfolio webpage, and multiple other noteworthy projects.

TECHNICAL SKILLS

Languages	Libraries	Frameworks	Databases	Utilities	Other
+ JavaScript (ESNext, NodeJS) + Typescript + HTML/CSS/SASS + PHP	+ Redux + ReactJS + D3.js + Three.js + jQuery	+ Next.js + Bootstrap + ExpressJS	+ MySQL + MongoDB	+ Git + Webpack + Gulp + TailwindCSS + Styled-Components	+ WordPress + Adobe XD + Figma + Npm + Yarn + Socket.io + Docker + Bash

PROJECTS

Multi-Page Small Business Website ‘oussamaJedda.com’

Tech-stack: Next.js, GSAP, Three.js, Html canvas
